FRAUDS IN SILVER BOW COUNTY-CONCLUSIONS ity, which, like that of the majority, was a very OF THE MAJORITY-THE REPUBLICAN SENATORS DECLARED LEGALLY ELECTED.

The report of the majority of the Senate committee on privileges and elections upon the Montana election case was submitted today by Mr. Hoar. The majority report gives The Measure Not Yet Reported to the at the outset the circumstances surrounding the election of Messrs. Saunders and Powers by the Iron Hall or republican legislature, composed of half the members of the senate and the republican representatives claiming to be elected, and of Messrs. Maginnis and Clark by the court house legislature, composed of half of the senate and democratic representatives claiming to be elected. None of the senators had their election called in question, but there were two sets of five representatives from Silver Bow county claiming to be elected. One of these sets elected, with twenty-five other republicans and eight senators, voted for Saunders and Powers. The other set, with twenty-four other democrats and eight senators and for Mariana and the senators are senators. democrats and eight senators, voted for Ma-ginnis and Clark.

WHICH SET WAS ELECTED? The case, therefore, turned upon the quer tion which of these two sets of five persons was entitled to sit in the House of Representatives from Silver Bow county. It is not claimed that there was any adjudication of the House itself affirming or denying such title. To de-termine this question, the report says, the com-mittee have been led to consider three others.

Saunders and Powers were elected Senators. Thomas F. Courtney, A. H. Day, A. M. Dersseault, Job W. Gilligan and Joseph Hogan held certificates of election from the clerk of Silver Bow county, took part in the organization of the court house (or demonstrated) cratic), house of representatives, and remained members until after the election of Messrs Maginnis and Clark.

CONCLUSIONS OF THE COMMITTEE. After reviewing antecedent legislation upon the subject of the election, including the enabling act of Congress, the ordinances passed by the constitutional convention and the pro-visions of the old territorial laws, the majority conclude that the territorial law providing That was decided the other day (said Mr. that the county clerk shall issue certificates of election to representatives in the legislature was superseded by the ordinance of the constitutional convention, which imposed that duty upon the state board of canvas-ers, and hold relations. I think that the decision should be that "Bray and his four associates, who went to the Iron Hall with the certificates of the state board that they were duly elected from Silver Bow, had the lawful credentials."

UPON THE QUESTION OF QUORUM which has been raised in connection with the case, the committee here says: "It will appear that it is unnecessary to decide this question for the purposes of the present case. We be-lieve, for reasons hereafter stated, that the certificates of the state board declared the true will and choice of the people, as expressed by a majority of the votes actually and law-Mr. Hoar, from the committee on privileges and elections, reported four resolutions in the case of a percon claiming title to a seat in an assembly whose character is disputed by some other body and in an assembly whose character is undisputed. • • But we think the credentials of the five repubhean members from Silver Bow are fully supported by the facts of the election, as they are disclosed to us by the admissions of both sides and by the undisputed and uncontrolled evi-dence taken in judicial proceedings in Montana and laid before us by Messrs. Clark and Ma-

THE ELECTION IN SILVER BOW COUNTY. The whole inquiry turns upon the honesty and fairness of the election at precinct 34, Silver Bow county. The proceedings in rela-tion to the canvassing of the returns of that precinct (a camp on the line of the Butte and Gallatin railroad in process of construction) are set forth in detail from which the majority conclude that the state board of canvassers did their duty as required by law. But they also think that the election held at precinct 34 was, in fact, irregular, illegal and fraululent, and that this appears from the records and from the undisputed facts furnished by Messrs. Maginuis and Clark.

THE ALLEGED FRAUDULENT ELECTION. stance. The copy of the poll list before the committee shows that the 174 voters of precinct 34 voted in alphabetical order. This seems to the majority conclusive evidence that the whole proceeding was manufactured. "We have also," the ma jority say, "the extremely suspicious and unusual circumstance that while there were twenty-five different officers voted for and also a vote for or against the constitution every one of the persons voted for every one of officers and for oragainst the constitution. We have the further remarkable and suspicious circumstance that while the proposed consti-tution was supported by both parties in Montana the vote against the constitution was the same within one as the republican vote on the officers, when the vote was on party lines.

IT IS ALSO SINGULAR and to us incredible that while there were in the county of Silver Bow about 7,000 votes so evenly divided between the two political parties in the case of every one of the candidates a change of less than eighty votes whould have changed the majority from one side to the other, the voters of this new community at precinct 34, who must have assembled from various parts of the county, whose names as they appear upon the poll list indicate their descent from various Mr. Cannon (Ill.), from the committee on nationalities, should have been divided in any fair election between the two political parties in the proportion of 171 to 3." VOTING ALIENS.

The majority further say that the canvass of the votes of the precinct was not public within the meaning of the law: that 48 unnaturalized aliens voted at precinct 34 and 126 such persons voted at precinct 26, or more than enough to have changed the result in all the disputed cases, even if all the republican votes cast at both precincts were cast by those unnaturalized

SUGGESTIONS SET ASIDE. In conclusion the majority discuss two propositions or suggestions that were made. One is that the governor having failed to recognize the legislature, it had no legal existence, and, therefore, could not elect Senators. the majority dismiss as ingenious but without foundation and opposed to the plain constitutional rights and duties of the legislature. The other is that the should refer the case back to the people of Montana in order to teach them a needed lesson. The majority say that they do not deem it to be in their power to deprive any state of its rightful representation in the Senate or to bar rightfully elected Senators in order to teach lessons to any person or to indicate their displeasure at certain modes of procedure. As to the effect of this course, if it should be pursued, the majority say, it would, in their opin-ion, be diametrically opposite to that sought by really offering a premium on lawlessness.

THE MINORITY REPORT. Mr. Gray presented the report of the minorlong document. It sets forth a state of things different from that given in the majority re-Senators are entitled to their seats.

THE TARIFF BILL. Full Committee.

The committee on ways and means, as whole, will probably not get the tariff bill before the latter part of the week. The republican members are still working on the bill and there are several items yet over which there is a good deal of pulling and hauling from the

They are giving proper consideration to the various petitions and protests that come to their attention, which, of course, involves much labor and takes up time. They do not propose

to act hastily on any question and when good reasons are given for the reconsideration of any matter they have passed upon the matter is carefully weighed.

They hope to get the bill through the whole committee and into the House by about the 10th of April. When the measure finally gets into the House it is not proposed to make into the House it is not proposed to waste much time in general debate, but to go as soon as possible into the consideration under the five-minute rule.

The home is situ-ated in Alena township about eleven miles west of here and is quite a distance from any other house. It is divided into two sections, each brother occupying a section. A queer co-incidence is that both brothers were shot in the same room. The coroner's verdict in the case of Albert's death was that he met his death at the hands of some person unknown. When Dr. Fosdyck was shot suspicion pointed strongly to the guilt of his brother Albert, who was arrested, but acquitted for lack of evidence. Last Wednesday a correspondent interviewed Dr. Fosdyck

One of the theories the officers are working is as follows: Albert Fosdyck is said to have been engaged them trouble would have arisen from other women. Before his brother was shot it was announced that he was to be married soon. The jilted woman determined upon revenge. It is thought by some that a woman fired the shot at Dr. Fosdyck, supposing it was Albert. After finding out her mistake she was still determined to have vengence on Albert Fosdyck and killed him last Friday night. If this theory be true the woman or her accomplice has done her work well, as no possible clue has yet shown itself by which she can be detected. No revolver was found in the room. One thing is quite certain and that is if he was murdered the man or woman who fired the fatal shot placed his body in the chair after he was dead. The deceased was in town Friday and his actions there were so strange as to attract attention. He seemed to be in deep meditation over something. EUROPE'S PEACE. A Proposed International Conference to

Berlin, March 24. - It is stated that the Emperor William has notified Emperor Francis Joseph and King Humbert that the triple alliance will not be disturbed by the resignation of Prince Bismarck.

Preserve the Triple Alliance.

VIENNA, March 24.—It is reported that Count Kalnoky, the imperial prime minister, has sug-gested that a conference be held between Emperor William, Emperor Francis Joseph and King Humbert as the only means of allaying the anxiety prevailing in Austria and Italy in regard to the situation arising from Prince Bismarck's resignation. WHEAT IN ILLINOIS. There Was Big Loss by the Recent Cold Weather.

SPRINGFIELD, ILL., March 24 .- To meet the demand on the Illinois state board of agriculture for information concerning the growing wheat crop a circular was addressed to the various counties of the state for the condition of wheat and fruit since the recent unfavorable weather. Time enough has elapsed since the bitter freezes of the second week of the month for those familiar with wheat growing to make a reasonably fair estimate of the dam-age done in their vicinity. That the crop, taken as a whole, has been very materially damaged there can be no doubt, but the extent of the injury depends much upon the variety of the wheat, the character of the soil and manner the and time of seeding.

The Fultz variety has been injured to an alarming extent while the "old red" wheat has pulled through in moderately fair condition. It should be borne in mind, however, that the

CALL IT ANTHONYVILLE. Leavenworth is Going to Have Women in Her City Council.

LEAVENWORTH, KAN., March 24.-The ladies

of Leavenworth have been voting at municipal elections for several years, but they did not seem to take any part in nominating candidates or political management in this city until Saturday. A few weeks ago a number of the ladies met and organized a ladies city central committee. They appointed proper subcommittees for the different wards and went about organizing in a thorough and systematic man-ner. They did not get their organization com-pleted in time to take part in the democratic convention which was held several weeks ago, but they did in the republican, which was held Saturday evening. A call has been issued Saturday evening. A call has been issued for a regular republican convention and all men delegates were about to be selected, as usual, when the ladies called on the committeemen from the various wards and asked to be allowed representatives in their convention. Their request was granted and they attended the primaries. They were given three out of the six members of the school board and the following are their nominees: Mrs. A. R. Massey, Mrs. A. Lake and Mrs. S. M. Harlough. They were also given the member of the city council in the third, the strongest republican ward in the city, and they nominated for the position Mrs. H. D. Cusing, a very able woman, who is certain to be elected. In order to allow the ladies a chance to help manage the city campaign the convention decided to have two members from each ward on the central committee, one lady and one gentleman, who were elected accordingly.

New York, March 24.- The duliness and narrowness which were so prominent in the stock market during the latter part of last week were still the principal features this morning, but, as was natural, after the advance of Saturday on a dull market, prices were, as a rule, somewhat weaker, though marked improve-ment was made in some directions. First prices were generally lower than the closing figures of Saturday, the losses extending to per cent, but further losses were restricted to light fractions in all cases except sugar, which declined 1, and afterward fully recovered the loss. On the other hand special strength was seen in Chicago gas, which rose to 80, against 77½ Saturday, and Tennessee coal continued its rise, reaching 223 from 21. Tennessee fol-lowed with a gain of 1 per cent to 57. The changes in the other stocks were entirely in-
